### 1. How would you describe Restore Hope and our services?

We are an organization that is serving homeless women, Our aim is to restore hope, by treating each of them with dignity and compassion. We hope usher them into a better life experience by walking alongside them one on one and by providing both assistance with things such as referrals to other reservices, providing everyday things like toiletries and just being there to reach to.

### 2. What sets Restore Hope apart from other organizations?

Our attention to each woman as an individual and our focus on life change rather than simple handouts.

### 3. What can Restore Hope do better?

I think we need a better way of finding and equipping volunteers so that the bulk of the responsibility doesn't keep landing on you and we also need to find a more consistent way of finding the women we are looking to support (ie how we do our 'outreaches')

Also attached are the financials, the balance sheet shows what is in our account including carry over from last year but it just has a single line item for expenses. So then the custom report is our expenses this year (we haven't really brought in any new funds and that report is specific to the year so it looks like we operated at a loss which isn't true so that's why you need both)
